REAGAN AND SINCLAIR READY

What is regarded by fans in the boxing game as one of the most interesting and keenly contested ever held in this state is the go between Jimmy Reagan, ex-bantamweight champion, and Peanuts Sinclair, the Salt Lake pride of the squared arena, on Labor day afternoon at the fair grounds.

Reagan has been proclaiming loudly from his training quarters at the Hermitage in Ogden canyon that he will win. He says he is in better condition than he ever was in before.

He is the winner of 39 battles out of 42 as a boxer. He has a draw with Monte Attell, the bantamweight champion, to his credit. The San Francisco papers gave Reagan the decision.

Sinclair has never lost a battle in all of his 30 contests. Only two were draws.

One of the largest crowds of the year is expected at the contest. Manager Shumway has enlarged and strengthened the arena in anticipation of a record attendance.

A special train will leave Salt Lake at 2 o'clock Monday. Two preliminaries will precede the main event. Tom Painter of Evanston,

Ill., will fight against a local contender.

Reagan's manager, Shumway, is confident of a victory for his charge.

AUTO TOUR OF EUROPE

Mr. and Mrs. William Eccles with their daughters Cella Eccles and Mrs. Pearl Eccles Reagan, and their son Rowland Eccles, returned yesterday afternoon from an extended tour of Great Britain and the Continent.

Mr. and Mrs. Eccles with their daughters began their trip three months ago, shipping their automobile from Oregon to Southampton. At this point Rowland Eccles, who had been doing missionary work in Northern Scotland for the past two years, joined the party.

After their arrival at Southampton, the tourists motored north to Northern Scotland, spending considerable time in that country. Mr. Eccles declares that Scotland beats France in the matter of scenery and hospitality, declaring that this portion of the trip was one of the most pleasant of all.

By auto they returned southward to London and thence to Southampton, where they crossed the channel to finish the tour of the Continent.

Holland, Belgium and Germany were visited in order, each country interesting the travelers greatly. A trip up the Rhine is one of the pleasantest memories of the party.

Next they went to Cologne, thence to the Passau Play at Oberammergau. In Switzerland, Mr. Eccles states is the grandest scenery in the world.

Considerable time was spent in sight-seeing in this beautiful country. The natural beauty of this little country surpasses even the famed Rhine, according to our travelers. The whole country appears to be one large summer resort, made especially for the sight-seer and the pleasure hunter. In the valleys, between mountains fringed perpetually with snow, are gardens of grapes that would tempt a teetotaler to become a resident.

Each peak is accessible by the gauge railways, some on a forty-eight per cent grade, which carry one to and away beyond the snow line. The Eccles family took advantage of one of these trips, and express their wonder and admiration at the superb view from the summits.

A side trip was made to Denmark and return, the party embarking at Cherbourg for America and home, after three months of pleasure and instruction, and after a two year absence of one of its members.

Remarkable Farm-Land Opportunities Await You in

Park Valley

Box Elder County, Utah,

Here, in the heart of a great farming section, which in possibilities, alive with opportunities, are thousands of acres of finest fruit land and dry-farm land awaiting development which will make it equal in value to any land in the west.

Park Valley is in the western portion of Box Elder County. The land now offered for sale was originally granted to the railroad companies in early days to encourage the development of the west. This is the reason that such a large, fertile valley in such a favorable location has been practically undeveloped until now.

The Pacific Land & Water Co., owns more than 12,000 acres of fruit and dry-farm land in the southern part of the valley. This land has been divided into 80 acre tracts and is to be sold at SALT LAKE CITY, OCTOBER 8th, at very attractive prices.

THESE ARE THE PRICES AND TERMS.

Fruit lands—5,000 acres.

\$12.50 per acre; \$2.50 per acre down, balance in five annual payments of \$2.00 each, with interest at 7 per cent.

Dry-farm lands—7,000 acres.

\$9.75 per acre; \$1.75 per acre down, balance in five annual payments, with interest at 7 per cent.

We Want You to See Park Valley

We want every person interested in farm land opportunities to know what a desirable place it is. Excursions to Kelton, the nearest railroad station 12 miles have been arranged as follows:

From points north of Brigham as far as Preston, tickets will be sold at reduced rates on September 13th, good returning Sept. 15th. Tickets good only on regular morning train.

From points south of Brigham as far as Salt Lake, Sept. 20th, good returning Sept. 22nd, and Sept. 27th, good returning Sept. 29th. See railroad agent for rates and other information.

Conveyances will be provided at Kelton and ample provisions have been made both at Kelton and Park Valley for the entertainment of all who attend. At Park Valley, a prosperous little town in the heart of the valley the townspeople and company representatives will furnish information regarding the surrounding country and will show visitors what Park Valley has done, is doing and will do.

This is one of the very few remaining cheap land offerings in Utah. Such opportunities are fast passing by. If you come with us on one of these excursions we know you will buy some land.

BIG FIRE NEAR THE GASWORKS

A fire broke out shortly before 7 o'clock last night among the buildings of the gas plant of the Utah Light and Railway company on Lincoln avenue near Twentieth street. The amount of flame and smoke was enormous considering the small amount of damage, and the efforts required to extinguish it.

The blaze started in a brick furnace near the main building and originated from a broken connection in the pipe attached to a boiler, setting fire to ten or twelve tar barrels close by.

Immediately the flames shot skyward until the whole heavens were illuminated by the blaze, the fanciful figures formed by the reflection of the light upon the thick masses of black smoke making a beautiful spectacle.

The heavy fumes of the burning tar hampered the work of the firemen somewhat, but inside of twenty minutes the conflagration was under complete control of the crew of the hose wagon—the only apparatus sent to quench the flames.

BOARD TO PAY BACK WATER TAX

At the regular meeting of the Board of Education last night the question of the proper payments to the city of the back water taxes were discussed to considerable length, with Superintendent Charles Kircher, of the Waterworks department taking an active part.

The taxes have not been paid by the educational board since the taking over by the city of the water system, and the discussion centered about the manner in which the assessment should be computed.

Reckoning the number of individual fountains in each school building, with the faucet in use, the water superintendent brought the tax for the use of the water up to something more than \$2,000, but this was considered rather exorbitant by the board.

After considerable argument, it was decided to tender the city council a warrant for \$500 for the payment of the water assessment from June, 1909, to the June of the following year—1910.

The sanitary report showed 11 cases

of scarlet fever among school children.

The plowing of water to the Five Points school was discussed next. The proper route to follow in bringing the water to the school house brought forth conflicting opinions from Mr. Kircher and members of the board.

The former considered running the pipes up Second street to Adams and then across to Third street, but when it was suggested that twelve families on Third street had requested that the water be brought up past their residences, and had expressed a willingness to share in the cost of the work, Mr. Kircher gave way, but not without expressing a doubt as to the Third street residents' consistency in their promise. The matter was referred to the waterworks committee.

The legality of an election if held in a school house while school was in session, and the validity of an election if held in any but the advertised place was the next question to interest the board members.
